

## Leverage Sustainable SUD Funding in Pennsylvania With Opioid Settlement Fund

### Opioid Settlement Fund Offers Opportunity to Secure Sustainable Funding for Substance Use Disorder (SUD) Treatment

---

Healthcare organizations in Pennsylvania can now access additional behavioral healthcare funding as part of the Opioid Settlement Fund administered by the Pennsylvania Opioid Misuse and Addiction Abatement Trust (the Trust), <https://www.paopiodtrust.org/>.

Here's how:

The Trust receives opioid settlement funds and distributes them to the Commonwealth and participating counties and subdivisions for exclusive use on opioid abatement. Fund allocation decisions:

1. **State Share:** Funds are appropriated by the Pennsylvania General Assembly.
2. **Local Share (County):** Determined by county officials.
3. **Local Share (Litigating Subdivisions):** Determined by local officials for each county, city, township, and borough along with the District Attorneys for Berks, Bucks, Chester, Clearfield, Dauphin, Delaware, Erie, Northampton, and Westmoreland counties.

### Fund Allocation

State Share	Local Share	Other Share
15%	85%	0%

### Special Notes

85% Local Share Split: 70% County Abatement Account Share and 15% Litigating Subdivision Account Share
